

How the monthly electricity bill for your household is calculated:

In general, the monthly electricity bill is calculated on the reading of the meter for 30 days. In the event the meter reading takes place before or after 30 days, the maximum unit limits in the respective blocks will be adjusted accordingly. The monthly bill for domestic users will be calculated under six main blocks.

If the monthly electricity consumption under 31 units

The total bill for those using up to 30 units will be: Rs. 3 per unit; Plus 25 per cent Fuel Adjustment Charge on the rupee value of total units consumed and the Fixed Monthly Charge of Rs. 30.

If the monthly electricity consumption between 31 and 60

The total bill for those using between 31 and 60 units will be: Rs. 3 each for the first 30 units; Four rupees and 70 cents each for the balance units; Plus 35 per cent Fuel Adjustment Charge on the rupee value of total units consumed and the Monthly Fixed Charge of Rs. 60.

If the monthly electricity consumption between 61 and 90

The total bill for those using between 61 and 90 units will be: Rs. 3 each for the first 30 units; Four rupees and 70 cents each for the next 30 units; Seven rupees and 50 cents each for the balance units; Plus 40 per cent Fuel Adjustment Charge on the rupee value of total units consumed and the Monthly Fixed Charge of Rs. 90.

If the monthly electricity consumption between 91 and 120

The total bill for those using between 91 and 120 units will be: Rs. 3 each for the first 30 units; Four rupees and 70 cents each for the next 30 units; Seven rupees and 50 cents each for the next 30 units and Rs. 21 each for the balance units; Plus 40 per cent Fuel Adjustment Charge on the rupee value of total units consumed and the Monthly Fixed Charge of Rs. 315.

If the monthly electricity consumption between 120 and 180

The total bill for those using between 121 and 180 units will be: Rs. 3 each for the first 30 units; Four rupees and 70 cents each for the next 30 units; Seven rupees and 50 cents each for the next 30 units; Rs. 21 each for the next 30 units and Rs. 24 each for the balance units; Plus 40 per cent

Fuel Adjustment Charge on the rupee value of total units consumed and the Monthly Fixed Charge of Rs. 315.

If the monthly electricity consumption over 180

The total bill for those using over 180 units will be: Rs. 3 each for the first 30 units; Four rupees and 70 cents each for the next 30 units; Seven rupees and 50 cents each for the next 30 units;Rs. 21 each for the next 30 units; Rs. 24 each for the next 30 units and Rs. 36 each for the balance units; Plus 40 per cent Fuel Adjustment Charge on the rupee value of total units consumed and the Monthly Fixed Charge of Rs. 315.
