SUBMISSION OF LEAST COST LONG TERM-GENERATION EXPANSION PLAN 2023-2042 TO THE PUCSL

Reference is made to your letter dated 17th June 2022 bearing number *PUC/LIC/2022/TL/80*, reminding us to submit the draft Least Cost Long Term Generation Expansion Plan (LCLTGEP) prepared in compliance with the government policy on or before 30th June 2022.

This is to keep you informed that we have concluded important studies pertaining to the preparation of LCLTGEP 2023-2042 and are currently in the process of obtaining internal approvals. However, as considerable additional simulations and analysis were required to be carried out this time to meet enhanced RE policy target, the preparation of the plan had taken more time than usual. Accordingly, we wish to inform you that we may not be able to submit the draft for your approval by the stipulated deadline. However, we would take all possible arrangements to submit the base case plan within July 2022.

We thank you in advance for your kind understanding and wish to state that no sooner we obtain approval from CEB Board for the Base Case, we would take arrangements to submit to the Commission.
