Dispatch of Water for Power Generation During GCE Advanced Level Examination

Public Utilities Commission of Sri Lanka (PUCSL) has observed that the Hydro Reservoirs has a total capacity of water at present which can generate 778GWh of electrical energy, which is 100GWh higher than the reservoir capacity had in the same period of year 2022.

As PUCSL has directed CEB to provide an uninterrupted power supply during the period of GCE Advanced Level Examination is held until 17th February 2023, you are kindly requested to allow CEB to release at least 2GWh per day more than the allocated water dispatch until 17th February 2023 for power generation, considering the above for the benefit of the candidates who sit for the Advanced Level Examination.

Janaka Ratnayake
Chairman
