Submission of Long Term Power System Development Plan 2027-2046 – Interim Report (2027-2029)

This refers to your letter (Ref: CE/GP/F-101) dated 09th July 2026 on the above subject.

The Commission observes that the recommendations provided under Section 5.3 (Timely Integration of the Renewable Energy Management System and Smart Metering Systems) and Section 5.6 (Implementation of System Strength and Stability Support Measures) of the Interim Report for the period of 2027-2029, submitted with the above letter, do not include sufficient details regarding their implementation plans. The report itself highlights that the timely implementation of the measures proposed under these sections is critical to ensuring power system security, reliability and resilience, to facilitate the transition towards a system with a high penetration of renewable energy.

Accordingly, you are informed to submit a detailed implementation plan for the measures proposed under Section 5.3 and 5.6 of the Interim Report, including the key milestones, timelines, responsible entities, budgetary requirements and any other information necessary to assess their effective implementation.

Kanchana Siriwardena
Deputy Director General - Industry Services
